Profile

Flutter Mobile Application developer specializing in cross-platform mobile application development using **Clean Architecture** and **Riverpod** state management. Experienced in **REST API** integration, **Supabase**, **Firebase**, and **Hive** for efficient data handling. Proficient in Python and machine learning model integration, passionate about building scalable, maintainable, **AI-driven mobile** solutions.

Experience

Flutter Developer Intern – Wizard Software & Technology Bangladesh Ltd. July 2026 – Present

- Developing production-ready Flutter applications using **Clean Architecture**.
- Converting Figma designs into responsive and pixel-perfect user interfaces.
- Integrating **RESTful APIs** and implementing state management with **Riverpod**.
- Implementing authentication, local database solutions, and reusable UI components.
- Collaborating with the development team using **Git**, **GitHub**, and Agile methodologies.
- Debugging issues, optimizing application performance, and developing new features.

Education

Sept 2022 – Sept 2026 BSc in CSE at **Green University of Bangladesh** (CGPA: 3.75/4.0)
June 2019 – Dec 2021 HSC at **Shaheed Police Smrity College** (GPA: 5.0/5.0)

Technical Skills

Programming Languages: Dart, Python, Java, C
Mobile App Development: Flutter, Cross-Platform Development, Clean Architecture, Riverpod (State Management), GoRouter (Navigation)
Backend & APIs: REST APIs, Supabase, Firebase, FastAPI, Google OAuth
Databases: MySQL, SQLite, Hive (NoSQL), Cloud Firestore
AI / Machine Learning: TensorFlow, Convolutional Neural Networks (CNN), Data Preprocessing, Model Integration
Tools & Platforms: Git, GitHub, VS Code, Firebase Authentication

Projects

ExamBuzz – Exam Preparation Platform Play Store

Flutter | BLoC | Dio | GetIt | GoRouter | Hive | Firebase | Clean Architecture

- Built and shipped a **production exam-prep app on Google Play** with timed **live MCQ and written exams**, results & merit lists, question banks, recorded classes, and premium study packages.
- Implemented **written-answer submission via document scanning**, a **teacher panel** for evaluating student papers, LaTeX/HTML math rendering, and in-app PDF viewing.
- Integrated Firebase Auth & Google Sign-In, **FCM push notifications**, **screenshot protection**, secure token storage, and in-app updates.
- Designed a scalable **feature-first Clean Architecture** (60+ BLoCs) with dynamic nested category navigation driven by a REST API.

Chatify – Real-Time Chat Application GitHub

Flutter | Supabase | Riverpod | GoRouter | SharedPreferences | Clean Architecture

- Developed a cross-platform **real-time messaging** app with 1-to-1 chat, **image sharing**, typing indi-

cators, read receipts, and unread badges.
- Implemented authentication, friend search, friend requests, profile management, online presence, theme persistence, and secure session management.
- Built a scalable application using Clean Architecture, Riverpod, GoRouter, and Supabase **(Authentication, PostgreSQL, Realtime, and Storage)**.

AI-Powered Smart Farming Assistant (Group Project) GitHub

Flutter | Python (FastAPI) | TensorFlow | Supabase | CNN | REST API

- Built a cross-platform mobile app with **AI-driven crop disease detection** using **CNN** and image processing
- Integrated **5+ ML models** for smart irrigation, fertilizer recommendation, yield estimation, and market forecasting
- Developed an **AI chatbot** for real-time farming assistance with weather API integration
- Designed scalable backend using **FastAPI** with **Supabase authentication** and cloud database following Clean Architecture

E-Commerce Mobile Application (Full Stack) GitHub

Flutter | Supabase | Riverpod | GoRouter | REST API

- Developed scalable cross-platform e-commerce app with category-based browsing and real-time search
- Implemented cart and favorites system with full **CRUD operations** and **Supabase backend integration**
- Built companion Admin Panel Dashboard with **Google OAuth**, real-time analytics, and product/user management

Admin Panel Dashboard GitHub

Flutter | Supabase | Riverpod | Google OAuth

- Built real-time admin dashboard with analytics (total users, products, categories) and full CRUD operations
- Implemented secure authentication with email/password and Google OAuth via Supabase

Achievements

Vice Chancellor's List Spring 2026, Fall 2025

Awarded a place on the **Vice Chancellor's List** at **Green University of Bangladesh** for outstanding academic excellence and consistent performance during the Spring 2026 and Fall 2025 semesters.
